SISTEMA MUNICH BZ
MUNICH BZ SYSTEM

28

TORINO

CONCEPTO FUNCIONAL

De gran versatilidad, permite fabricar armarios de grandes dimensiones mediante un herraje que puede soportar hasta 80 kg. por puerta y que permanece oculto tras las puertas.

Posibilita la fabricación de puerta de madera con un espesor máximo de 30 mm.

Incorpora perfilera de aluminio:

- Para tablero de 19 mm.
- Para tablero de 10-11 mm.
- Para vidrio 4-5 mm.

Con las que podemos realizar puertas completas de vidrio o combinaciones de vidrio-madera.

SUMMARY

These aluminum fittings make possible to manufacture large size closets, as they resist up to 80 Kg each door and keep the fitting hidden behind the doors.

It is possible to manufacture 30mm thickness board.

The system incorporates aluminium profile:

- For 19 mm. thickness panel.
- For 10-11 mm. thickness panel.
- For 4-5 mm. glass panel.

With those aluminium profiles you can manufacture glass doors or combine glass and wood.

MUNICH BZ

CONCEPTO FUNCIONAL

Este tipo de construcción permite que las puertas puedan quedar alineadas en un mismo plano, creando un efecto de continuidad visual en las puertas.

Permiten fabricar frentes de armario de gran amplitud donde el herraje queda oculto sin que se pueda apreciar ningún sistema de sujeción.

Una de las mayores ventajas de este herraje es la poca profundidad que restamos al armario. Únicamente se descuenta el espesor de la puerta que puede ir de 19 a 45 mm.

SUMMARY

This system allows keeping the hanging doors lined up on the same plane. It also permits to manufacture closets of any size, where the fittings are hidden and the subjection can't be seen.

One of the great advantages of this system is that it takes very little depth from the closet. We could say than no more than the thickness of the door that is between 19 to 45 mm.

COLOMA SYSTEM

CONCEPTO FUNCIONAL

Este tipo de construcción permite crear espacios de gran amplitud visual pudiendo exponer los productos de una manera atractiva y sencilla.

Conjunto de paneles y baldas soportados mediante perfiles ocultos de aluminio atornillados a la pared.

Su diseño permite regular las baldas a la altura deseada gracias a la cremallera que incorporan los perfiles.

Las baldas a utilizar son de 30-40 mm de grosor y los paneles traseros pueden tener un espesor de 10 a 30 mm.

El ancho máximo recomendado por módulo es 1,30 m.

La altura máxima del perfil básico es 2,80 m.

El peso máximo recomendado por balda es 50 kg.

El grosor estándar del panel trasero es 10 mm.

SUMMARY

This system creates a model of visual spaciousness being able to display the products in an alternative and simple way.

A collection of panels and shelves supported by slotted aluminium profiles fixed to the wall that remain completely concealed and permit shelf regulation to the desired height.

The shelves thickness is 30-40 mm. and is intended for backing panel thickness from 10 to 30 mm.

The maximum recommended panel width is 1,30 m.

The basic profile maximum height is 2,80 m.

The maximum weight recommended per panel is 50 kg.

The back panel standard thickness is 10 mm.

SHELF ASSEMBLY

SISTEMA UNIX

UNIX SYSTEM

CONCEPTO FUNCIONAL

De gran versatilidad, permite dos tipos de construcciones:
Suelo-Techo ó *Suelo-Pared*

A diferencia de los diseños tradicionales de módulos con costados de madera, este sistema permite una visión global de todos los artículos que se expongan.

La perfilera vertical de aluminio tiene el canal longitudinal en la cara trasera, las tuercas quedan ocultas a la vista y los soportes de la balda poco visibles. Las baldas pueden ser reguladas a la altura deseada.

Las cartelas permiten utilizar baldas para madera o vidrio, pudiendo inclinarse hasta 38°.

Este sistema nos permite recubrir el perfil con los mismos acabados que las baldas creando una integración total entre ambos.

SUMMARY

This system has a great versatility. It permits two types of assembly:

From floor to ceiling or *From floor to wall*

There is a difference with traditional designs, which are manufactured with wooden sides, Unix allows a quick overall view of all the exposed articles.

The vertical aluminium profile has a longitudinal slot on the rear face, the nuts are hidden from view and the shelf supports are barely visible. The shelves can be fixed at any height.

The shelf's brackets allow the use of wooden or glassy material and are able to lean 38°.

This system allows wrapping the profile with the same finishings as the shelves making a complete integration on both elements.

SISTEMA DOMINÓ

DOMINÓ SYSTEM

CONCEPTO FUNCIONAL

De gran versatilidad, permite dos tipos de construcciones:
Suelo-Techo ó Suelo-Pared

A diferencia de los diseños tradicionales de módulos con costados de madera, este sistema permite una visión global de todos los artículos que se expongan.

Gracias a la perfilera de aluminio con canal lateral y a las tuercas cabeza martillo, las baldas pueden ser reguladas a la altura deseada.

Las cartelas permiten utilizar baldas para madera o vidrio, pudiendo inclinarse hasta 38°.

SUMMARY

This system has a great versatility. It permits two types of assembly:

From floor to ceiling or From floor to wall

There is a difference with traditional designs, which are manufactured with wooden sides, Domino allows a quick overall view of all the exposed articles.

Thanks to the aluminium profiles having a lateral slot and the use of hammer head nuts the shelves can be fixed at any height. The shelf's brackets allow the use of wooden or glassy material and are able to lean 38°.

STRUKTURA

CONCEPTO FUNCIONAL

Diseño flexible y versátil, que permite fabricar muebles a medida mediante una perfecta y sencilla unión de perfiles. Pudiendo combinar:

- Tableros de 10-30 mm.
- Vidrios de 6-10 mm.

Mobiliario personalizado, adaptado en cada caso a las necesidades requeridas.

SUMMARY

Flexible and versatile design which allow to create custom furnitures because of the perfect and simple joint between the aluminium profiles.

This system permits to combine:

- 10-30 mm thickness board.
- 6-10 mm glass.

Customized furniture, adapted in each case to all needs.

CABINAS SANITARIAS A MEDIDA

CUSTOM CUBICLE PARTITION

Posibilidad de suministrar las cabinas totalmente acabadas y preparadas para su instalación incluyendo todos los accesorios necesarios.

La fabricación se realiza con laminado compacto fenólico de un espesor de 12mm con dos caras decorativas y un núcleo negro.

Todas las piezas fenólicas irán con los cantos mecanizados y redondeados, así como los orificios y pretaladros para una mayor facilidad de montaje.

Para el herraje disponemos de perfiles de aluminio, acero inoxidable ó mixto. Todo el herraje de acero inoxidable es calidad AISI304, pudiéndose solicitar AISI316.

Gama de acabados fenólicos:

We can supply fully finished cubicle partition, ready to install including all necessary hardware.

Cubicle partition made by phenolic compact laminate, 12mm thickness with two decorative faces and black core.

All phenolic boards come with mechanized and rounded edges as well as holes and knockouts made for greater flexibility and easy installation.

We have several options for hardware: aluminum, stainless steel or mixed All stainless-steel hardware is AISI304 quality, also AISI316 can be requested.

Range of phenolic finishes:

CONCEPTO FUNCIONAL

LAS MEJORES MATERIAS PRIMAS, EL CONOCIMIENTO ARTESANO DE LOS TRABAJADORES QUE COMBINA LA TECNOLOGÍA MÁS AVANZADA DE NUESTRAS MÁQUINAS, EL DISEÑO EXCLUSIVO, LA BÚSQUEDA CONTINUA DE NUEVOS MODELOS, COLORES Y SOLUCIONES, EL RETO DIARIO PARA MEJORAR LA CALIDAD DE NUESTROS PRODUCTOS.

El marco técnico de aluminio raso muro Minimal se incorpora perfectamente en la pared, y la puerta queda integrada en el entorno creando un diseño que combina lo funcional y esencial. El color de la pared, el papel pintado, los murales y las decoraciones fluyen hacia la puerta sin interrupción. Integrando completamente todos los elementos del entorno.

La reversibilidad del sistema se determina durante la instalación: invierta el marco para definir la dirección (tirando o empujando) simplemente volteando el ala, puede establecer la dirección de apertura, derecha o izquierda.

Equipado con cerradura magnética y con bisagras ocultas que permiten la regulación en los tres ejes permitiendo una perfecta estabilidad y planitud de la puerta

De forma opcional se suministra una hoja lisa de 45mm de espesor, alveolar fabricada con tablero HDF de 7 mm y sello de calidad AITIM. Bastidor perimetral en madera y rechapado en PVC relacable a 4 lados encolado mediante adhesivo PUR, con refuerzo para cerradura. Fondo poliacrílico uv de gran adherencia (250 g/m²) lo que permite la fácil adhesión de pinturas y lacas.

SUMMARY

THE BEST RAW MATERIALS, THE WORKER'S CRAFT KNOWLEDGE THAT COMBINES THE MOST ADVANCED TECHNOLOGY OF OUR MACHINES, THE EXCLUSIVE DESIGN, THE CONTINUOUS SEARCH OF NEW MODELS, COLORS AND SOLUTIONS, THE DAILY CHALLENGE TO IMPROVE THE PRODUCTS.

The Minimal flush door aluminum technical frame is perfectly incorporated into the wall, and the door is integrated into the environment creating a design that combines the functional and essential. Wall color, wallpaper, murals, and decorations flow into the door without interruption. Completely integrating all the elements of the environment.

The reversibility of the system is determined during installation: reverse the frame to define the direction (pulling or pushing) by simply flipping the wing you can set the opening direction, right or left.

Flush door is equipped with a magnetic key lock and concealed hinges adjustable on three axes, to ensure extra stability.

Optionally it is supplied with a 45 mm thick, consisting on a solid dry wood perimetral frame, with an internal cellular structure, hot pressed with 7mm HDF board and AITIM quality seal and coated with Polyacrylic uv base with great adhesion (250 g / m²) which allows easy adhesion of paints and lacquers.

All the perimeter rabbets are coated with PVC primer film (including the lower one to prevent humidity) glued with PUR adhesive.

2350-2550

3.- Se podrá cortar un total de **80mm** por cada extremo como **máximo**.

3.- **80mm** is the **maximum measure** can be cut at each sides.

MONTAJE ASSEMBLY

Escuadra angular para la unión del marco de aluminio vertical con horizontal.

Angle brackets for connecting vertical aluminium frame with horizontal.

La bisagras ocultas aseguran la linealidad y la esencialidad del sistema de la puerta rasomuro, gracias al triple ajuste en los tres ejes.

The concealed hinges ensure the linearity and essentiality of the door system, thanks to triple adjustment on three axes.

Marco perimetral de aluminio extruido pintado con acabado poroso blanco. El marco puede considerarse como un producto recubierto terminado, pero gracias a este acabado especial que actúa como imprimación, también es adecuado para pintar con una pintura a base de agua.

Perimeter frame in painted extruded aluminum with white porous finish. The frame can be considered as a finished coated product, but thanks to this special finish that acts as a primer it is also suitable for painting with a water-based paint.

Soporte metálico de anclaje a pared.

Adjustable metal bracket.

Todos los kits de maco raso muro reversibles contienen :

- (A) Marco completo aluminio según medida (2 verticales y un horizontal)
- (B) Refuerzos para facilitar el montaje aplomado (2un).
- (C) Soporte metálico anclaje pared (6un) carton yeso o revoque. En altura 2,35-2,55m. 8un
- (D) Cerradura y cerradero magnético (1un)
- (E) Bisagras ocultas 3un. En altura 2,35-2,55m lleva 4 un
- (F) Goma Q-lon perimetral antiruido

Cerradura magnética, ideal para puertas reversibles con una perfecta simetría, adaptable a cualquier manilla. Apertura y cierre silencioso y fluido.

Magnetic door lock, ideal for reversible doors with perfect symmetry, is adaptable to any handle. Noiseless and fluid door opening and closing.

Refuerzos para facilitar el montaje aplomado.

Reinforcement for mounting perpendicular

Cerradero magnético
Magnetic strike plate

2030 mm - 2190 mm

2190 mm - 2350 mm

2350 mm - 2550 mm

1.-Indistintamente de la altura del perfil elegida la distancia hasta el centro del mecanizado para la primera bisagra superior e inferior siempre será la misma. Esta distancia es de 200 mm al centro de la bisagra o de 133 mm al borde de la bisagra.

1.-Regardless of the chosen profile height, the distance to the center of the machining for the hinge will always be the same. This distance is 200mm to the center of the hinge or 133mm to the edge of the hinge.

2.- El corte del perfil puede realizarse en ambos lados si fuera necesario pero teniendo en cuenta que como mínimo debe dejar 53mm de distancia entre el extremo del perfil y el borde de la bisagra o de 120mm al centro de la bisagra.

2.- The profile can be cut on both sides if necessary but taking into account that at least 53mm of distance must be left between the end of the profile and the edge of the hinge or 120mm to the middle of the hinge.

DIMENSIÓN DEL PERFIL
2030-2190
2190-2350
2350-2550

3.- Se podrá cortar un total de **80mm** por cada extremo como **máximo**.

3.- **80mm** is the **maximum measure** can be cut at each sides.

La bisagras ocultas aseguran la linealidad y la esencialidad del sistema de la puerta rasomuro, gracias al triple ajuste en los tres ejes.

The concealed hinges ensure the linearity and essentiality of the door system, thanks to triple adjustment on three axes.

Marco perimetral de aluminio extruido pintado con acabado poroso blanco.
El marco puede considerarse como un producto recubierto terminado, pero gracias a este acabado especial que actúa como imprimación, también es adecuado para pintar con una pintura a base de agua.

Perimeter frame in painted extruded aluminum with white porous finish.
The frame can be considered as a finished coated product, but thanks to this special finish that acts as a primer it is also suitable for painting with a water-based paint.

Soporte metálico de anclaje a pared.

Adjustable metal bracket.

Todos los kits de maco raso muro reversibles contienen :

- (A) Marco completo aluminio según medida (2 verticales)
- (B) Refuerzos para facilitar el montaje aplomado (2un).
- (C) Soporte metálico anclaje pared (6un) carton yeso o revoque. En altura 2,35-2,55m. 8un
- (D) Cerradura y cerradero magnético (1un)
- (E) Bisgras ocultas 3un. En altura 2,35-2,55m lleva 4 un
- (F) Goma Q-lon perimetral antiruido

Set Elements:

- (A) Perimeter aluminium frame (2 vertical)
- (B) Reinforcement (2un)
- (C) Adjustable metal bracket (6un) for drywall or masonry. 2,35-2,55m height 8un
- (D) Magnetic lock and strike plate
- (E) Concealed hinges 3un. 2,35-2,55m height 4un
- (F) Q-lon perimetral anti-shock gasket

MARCO ALUMINIO REVERSIBLE + PUERTA PRELACADA

REVERSIBLE ALUMINIUM FRAME + PRE-PAINT DOOR

SISTEMA RASO MURO PATENTADO

FLUSH DOOR SYSTEM PATENTED

CARACTERÍSTICAS DEL SISTEMA RASO MURO MINIMAL + HOJA PRELACADA

CHARACTERISTICS OF THE MINIMAL FLUSH DOOR SYSTEM + PREPAINTED DOOR

- Sistema totalmente reversible pudiendo utilizarse para mano izquierda, derecha y para empujar o tirar.
- Equipado con cerradura magnética y con 3 bisagras ocultas que permiten la regulación en los tres ejes permitiendo una perfecta estabilidad y planitud de la hoja.
- Único sistema en el mercado que al voltear la puerta para cambiar la mano (izquierda o derecha) mantiene siempre la misma holgura en la parte superior del marco quedando la puerta totalmente integrada.
- La hoja suministrada es de 45mm de espesor, alveolar fabricada con tablero HDF de 7mm y sello de calidad AITIM. Bastidor perimetral en madera y rechapado en PVC relacable los 4 lados encolado mediante adhesivo PUR, con refuerzo para cerradura. Fondo poliacrílico uv de gran adherencia (250g/ m2) lo que permite la fácil adhesión de pinturas y lacas.
- Válido para construcción con cartón yeso y mampostería.
- Suministrado con goma perimetral anti-ruido que se ancla al marco.

- Totally reversible system that can be used for the left or right hand and for pushing or pulling.
- Equipped with a magnetic lock and 3 concealed hinges that allow regulation on all three axes allowing perfect stability and flatness of the door
- The only system on the market that when turning the door to change the hand (left or right) always maintains the same clearance in the upper part of the frame, leaving the door fully integrated.
- The supplied door is 45mm thick, consisting on a solid dry wood perimetral frame, with an internal cellular structure, hot pressed with 7mm HDF board and AITIM quality seal and coated with Polyacrylic uv base with great adhesion (250 g / m²) which allows easy adhesion of paints and lacquers. All the perimeter rabbets are coated with PVC primer film (including the lower one to prevent humidity) glued with PUR adhesive.
- Valid for construction with plasterboard and masonry.
- Supplied with anti-noise perimeter rubber that is anchored to the frame.

3.- **80mm** is the **maximum measure** can be cut at each sides.

**AJUSTE ALTURA PUERTA**

DOOR HEIGHT ADJUSTABLE

**SOLAMENTE PARA LA HOJA DE 2110mm****ONLY FOR 2110mm HIGH DOOR**

Por las características técnicas de fabricación, permite poder realizar un corte de hasta 80mm en la parte superior e inferior de la misma.

Due to the technical manufacturing characteristics, door allows us to make a cut of up to 80mm at the top and bottom.

Se recomienda que el corte se realice:

- Después de haber seleccionado la mano de la puerta (izquierdas ò derechas)
- En la parte superior de la puerta para evitar problemas de humedad

The cut should be made:

- After selecting the door hand (left or right)
- At the top of the door to avoid moisture problems

FRAME SETS

ADINOR

LOS CERCOS SE SIRVEN DESMONTADOS, CORTADOS, MECANIZADOS Y EMPAQUETADOS EN CAJA

INFORMACIÓN SUMINISTRO KIT MARCOS:

LOS CERCOS PARA HOJA SIMPLE DE ALTURA 2,11m INCLUYEN 3 PERNIOS EN INOX + LAS ESCUADRAS, GOMAS Y NIVELADORES DE MARCO NECESARIOS PARA SU COLOCACIÓN.

LOS CERCOS PARA HOJA SIMPLE DE ALTURA 2,40m INCLUYEN 4 PERNIOS EN INOX + LAS ESCUADRAS, GOMAS Y NIVELADORES DE MARCO NECESARIOS PARA SU COLOCACIÓN.

LOS CERCOS PARA HOJA DOBLES DE ALTURA 2,11m INCLUYEN 6 PERNIOS EN INOX + LAS ESCUADRAS, GOMAS Y NIVELADORES DE MARCO NECESARIOS PARA SU COLOCACIÓN

LOS CERCOS PARA HOJA DOBLE DE ALTURA 2,40m INCLUYEN 8 PERNIOS EN INOX + LAS ESCUADRAS, GOMAS Y NIVELADORES DE MARCO NECESARIOS PARA SU COLOCACIÓN.

THE FRAMES ARE SERVED DISASSEMBLED, CUT, MACHINED AND PACKAGED IN A BOX

INFORMATION SUPPLY SET FRAMES:

THE FRAME FOR SINGLE DOOR OF 2.11m HEIGHT INCLUDES 3 STAINLESS HINGES + THE ALIGNMENT BRACKETS, GASKETS AND FRAME LEVELERS REQUIRED FOR THE INSTALATION

THE FRAME FOR DOUBLE DOOR OF 2.11m HEIGHT INCLUDES 6 STAINLESS STEEL HINGES + THE ALIGNMENT BRACKETS, GASKETS AND FRAME LEVELERS REQUIRED FOR THE INSTALATION

THE FRAMES ARE SERVED DISASSEMBLED, CUT, MACHINED AND PACKAGED IN A BOX MECANIZACIÓN CERRADERO STRIKE PLATE MACHINING

THE FRAME FOR SINGLE DOOR OF 2.40m HEIGHT INCLUDES 4 STAINLESS HINGES + THE ALIGNMENT BRACKETS, GASKETS AND FRAME LEVELERS REQUIRED FOR THE INSTALATION

THE FRAME FOR DOUBLE DOOR OF 2.40m HEIGHT INCLUDES 8 STAINLESS STEEL HINGES + THE ALIGNMENT BRACKETS, GASKETS AND FRAME LEVELERS REQUIRED FOR THE INSTALATION

MEDIDAS ESPECIALES CONSULTAR
SPECIAL MEASURES UNDER REQUEST (MCE)

INFORMACIÓN SUMINISTRO KIT MARCOS:

TODOS LOS KITS PARA ARMAZON SE SUMINISTRAN CON LOS PERFILES VERTICALES MÁS LARGOS PARA PODER AJUSTAR EN OBRA.

LA MEDIDA ACE ES LA QUE NOS DETERMINARÁ LA LONGITUD DEL CABECERO

AEC = ANCHURA HUECO LIBRE SIN MOLDURAS DE ALUMINIO

EL MARCO DE ALUMINIO PUEDE UTILIZARSE INDISTINTAMENTE PARA PAREDES DE REVOCO Y CARTON YESO.

INFORMATION SUPPLY SET FRAMES:

ALL SETS OF ALUMINION FRAME ARE SUPPLIED WITH LONGER VERTICAL PROFILES SO IT CAN BE ADJUSTED ON SITE.

THE ACE MEASURE IS THE ONE THAT WILL DETERMINE US THE INNER WIDTH OF THE ALUMINIUM FRAME

AEC = OPEN WIDTH WITHOUT ALUMINIUM FRAME.

THE ALUMINIUM FRAME IT CAN BE USE FOR PLASTERBOARD WALLS AND MASONRY .

ACE = ANCHURA HUECO LIBRE SIN MOLDURAS DE ALUMINIO

AEC = OPEN WIDTH WITHOUT ALUMINUM FRAME.

SISTEMA ANTIPILLADEDOS SAFETY GASKET

**MARCO
EMPLOMADO
LEAD REINFORCED
ALUMINIUM FRAME
ADINOR**

MARCO DE ALUMINIO REFORZADO CON PLOMO ESPECIAL PARA RADIOLOGÍA

LEAD REINFORCED ALUMINIUM FRAME FOR RADIOLOGY ROOMS

CARACTERÍSTICAS CHARACTERISTICS

Perfil de aluminio reforzado con placas de plomo estandar de 2mm de grosor.

Diseñado especialmente para zonas de radiología (rayos X).

El marco se puede adaptar a distintos anchos de tabique desde 70 hasta 190mm.

El marco de aluminio puede tener acabado anodizado plata mate o lacado RAL.

Calculo medida Puerta:

Anchura Puerta = Anchura hueco luz obra - 60mm

Altura Puerta = Altura hueco luz obra - 40mm

Aluminium frame reinforced with a 2 mm lead.

Specially designed for radiology areas (X-Ray rooms)

The extensible aluminium frame can be adapted to from 70 to 190mm.

The frames finishings could be natural anodized or Ral powder coated.

Door measurement calculation:

Door width = Opening width - 60mm

Door height = Opening height - 40mm
