

LINERIO SLAT PANELS

LINERIO PANELS. WALL WITH DEPTH

Linerio slat panels give the interior a unique character. They can play the role of the main decoration, the quiet hero in the background or help to designate different zones in the interior.

Linerio panels are available in three widths and several colors, thanks to which we gain a lot of freedom of arrangement.

KEY FEATURES

EASY INSTALLATION

The installation is quick and easy. Panels are installed with adhesive and can be easily cut to the desired size using a saw or jigsaw.

EASY TO KEEP CLEAN

Can be cleaned easily with a damp cloth and mild detergent.

IMPROVE SOUNDPROOFING

Thanks to the material they are made of and their spatial structure, the panels soundproof the interior and eliminate reverberation and echo in large rooms

WATERPROOF

Panels can be installed as well in interiors with increased humidity, on condition they don't have direct contact with water.

LOW WEIGHT

Linerio panels are made of polystyrene. This makes them light, which means that the transport and mounting of the product are very easy.

RECYCLABLE

Linerio panels are made of fully recyclable material.

PRACTICAL MATERIAL

Linerio panels owe their unique properties to the material from which they are made. To manufacture the panels, we use polystyrene covered with a print made by hot-stamping. Polystyrene is a modern material that is 100% recyclable. It is lightweight, durable, and easy to clean. This means that Linerio can be installed even in more demanding areas, such as the hallway, work area, or the kitchen.

AVAILABLE SHAPES

Linerio panels come in three lines S, M and L, which differ in the width and depth of the slats.

L-LINE

COLOURS

There are six colors to choose from: from white through grey, light shades of wood, to brown mocha, dark brown and anthracite. These shades will work well in home interiors as well as in a hotel or restaurant.

INSTALLATION ADVANTAGES

- Quick installation – easy cut using a saw or jigsaw
- Choice of mounting options - vertically, horizontally, diagonally.
- Does not require additional substrate preparation work (e.g. priming) as well as protecting the top layer (e.g. grouting)
- Clean installation, no dust
- Immediate 3D effect on the wall after installation - the rooms can be used immediately

INSTALLATION OPTIONS

PANELE LAMELOWE LINERIO

Każdy element wnętrza ma znaczenie. Wpływa na jego klimat i na to, jak się w nim czujemy. Dlatego wykańczając ściany decydujemy jaką rolę mają pełnić – bohatera drugiego planu czy ozdoby wnętrza. Z pewnością pomogą w tym panele Linerio.
